

PROGRAM YOUR POKER ACE TOURNAMENT

9 or # 10 Custom Tournaments: Program your own structure and store it for next time.

To set up your own custom tournament, please follow these directions below.

Turn on the Poker Ace by pressing the “Play Button”

Under the “Select Structure” screen, use the “Down” button and scroll to #9

Press the Play button to select #9

Press the Pause button on top of the device to program your custom blinds.

Use the Up/Down buttons to highlight the fields you wish to change. Once highlighted, use the Play button or Back button to change the value.

ress the Play button again to start entering custom info.

The second option is to select the # of players. Use the arrow Up or Down to choose the number of players in your tournament.

Once you have selected the number of players, press the Play button to enter the amount of starting chips.

Use the Up/Down arrow buttons to select the starting chip stack.
Once you have selected the starting chip stack, press the Play button.
Now enter the buy in amount. Use the Up/Down arrows to select the buy in amount, \$1 min
\$10,000 max

Once you have selected the buy in amount press the Play button to access the payout structure.

Press the Pause button to change the payout structure. Then use the Down button to highlight the field you wish to change. For example:

1st pays 50%

2nd pays 30%

3rd pays 20%

Use the Play button or Back button to edit this structure (you can program the device to pay out up to 10 top positions)

Please note the device will automatically adjust the percentages to always total 100%

Once you have adjusted your payout percentages, press the Pause button.

Press the Play button to continue.

Now the device will tell you the prize pool and how much each position will receive.
